

## ADDITIONAL PERSONALISED SERVICES

DUNA 'S SHOES CAN ALSO BECOME PERSONALISED BY APPLYING SPECIFIC MODIFICATIONS TO THE UPPER, OUTSOLE OR SOME PARTS OF THE LAST ACCORDING TO THE FINAL CUSTOMER'S NECESSITIES.

- A** INSTEP
- B / C** BALL
- D** TOE HEIGHT
- E** INSOLE SPACERS

### COMPONENTS OF THE SHOES TO MODIFY

**THE OUTSOLE:** it is possible to change the height of the heel, of the toe or the whole bottom surface

**THE WIDTH:** it is possible to change the volume of the last or only the volume of some sections (see picture above)

**ADDITIONAL INNER INSOLE** to gain further space inside the shoe

A First level Preventative shoe can become a Second Level Preventative one - a diabetic last is used and a rigid rocking outsole is added to grant the dynamic walking despite ulcerations

**THE STIFFENERS:** can be low, high, stronger, stabil and padded in the lining to avoid feet injuries inside the shoe

- Only for children shoes lasts can change into

STRAIGHT LAST

ANTI-VARUS

ORTHOTIC
